

## Setting up Open Sync on Android

1. Open the Open Sync app and either allow or disallow it to auto-sync your calendars.
2. Press "+" in the bottom right corner.

3. Choose "Login with URL and user name" and type in the "Base-URL" and your login credentials.
  1. Base-URL for every freecloud calendar: <https://freecloud.eu>
  2. Your freecloud.eu username
  3. Your freecloud.eu password

### Create account

testuser@gmail.com

Use your email address as account name because Android will use the account name as ORGANIZER field for events you create. You can't have two accounts with the same name.

Contact group method:  
Groups are separate VCards

BACK CREATE ACCOUNT

5. Click at the account you want to use select all the calendars you want to synchronize with your smartphone calendar and click on the icon in the bottom right corner.
